

Name: \_\_\_\_\_ Period: \_\_\_\_\_

## Painting Value Worksheet

Divide your

### **Part I – draw 5, 2 inch boxes in a row**

Fill each box with one hue; the value should change from left to right across the row.

Try to use an even stroke, and always work to shape edges.

### **Part II –**

Draw a large 4-6 inch circle inside a square.

Paint the outside of the square one value, the inside of the circle should transition from light to dark

### **Part III**

Draw a large 4-6 inch circle inside a square.

Paint the outside of the square one value; the inside of the circle should transition from dark to light

\_\_\_\_\_/20 points possible

**Evaluating:** Stroke, value mixing, painting to the edge of the shape, smoothness of transitions
