Photoshop I – Practice Design Worksheet

The goal of the assignment is for you to show me that you have understood how to use the elements of art to create a successful design.

Begin with a pencil to lay out the basic compositional elements, next, begin adding color to your composition with the markers provided. Feel free to borrow elements and compositions from works that you have studied in class.

Your job is to create a well designed advertisement using 1 of the compositional strategies we review in class. Remember that you are selling something, it should be appropriate to our educational environment, and I should not have to ask what it is.
