

# Required Keyboard Short Cuts

*Prepare yourselves for a quiz!*

## **Keyboard short cut to delete preferences**

To reload Photoshop default preferences:

- Have your fingers ready, hovering above the Ctrl + Alt + Shift keys but **do not** press them down.
- Single click and select the Photoshop program icon. When ready, hit enter and immediately press and hold down the three keys Ctrl + Alt + Shift.
- A prompt will show up asking if you want to delete the default setting for Photoshop. Say, “yes”

## **The 10 required shortcuts**

1. **Ctrl + S** = Save
2. **Ctrl + D** = Deselect
3. **W** = Magic wand
4. **V** = Move
5. **S** = Clone stamp
6. **D** = Resets the default colors in the color picker, Black for foreground and White for background
7. **X** = Switches default foreground and background colors
8. **Z** = Zoom
9. **Ctrl + space bar** = gives zoom tool. Click and drag anywhere on image to zoom in. The larger the select, the larger the enlargement.
10. **Shift + letter** = Tool letter shortcut which gives you the alternate tool option or you can set up your preferences to be able to rotate through the tool options by pressing the tool letter repeatedly.
